21. MUNICH SYMPOSIUM ON LIGHTWEIGHT DESIGN Call for Papers

INVITATION & CALL FOR PAPERS

Every year since 2003, the Technical University of Munich, the Universität der Bundeswehr München and the University of Applied Sciences in Munich have been inviting researchers and experts in the field of Lightweight Design to the Munich Symposium on Lightweight Design. The Symposium aims to bring experts from both Academia and Industry together to discuss new developments, processes, and possible applications for pushing research in Lightweight Design. This year's Munich Symposium on Lightweight Design 2024 will take place over three days as an in-person event at the participating universities. Participation is free of charge. You can register [here](#).

We invite all interested researchers and industry practitioners to present their work. Please submit an abstract of your presentation until September 01, 2024. You will be notified about acceptance by September 02, 2024. Presentations can be submitted in German or English.

In addition, every accepted speaker is invited to submit a written contribution (full paper in English, 4 to 12 pages) by January 13, 2025. Submitted papers will undergo a review. You will receive a separate notification of acceptance by January 27, 2025. Accepted papers will finally be published by Springer as part of the Proceedings of the Munich Symposium on Lightweight Design 2024.

SUBMISSION & TOPICS

An abstract or short description of your presentation can be submitted via the [Springer OCS system](#). The template and guidelines can be found [here](#). Contributions may address, but are not limited to, one or more of the following topics:

Technical University of Munich

Design and Optimization of Lightweight Structures | Design for Additive Manufacturing | Topology Optimization

Universität der Bundeswehr München

High-performance Structures | Composite and Hybrid Lightweight Materials | Manufacturing Technologies and Additive Manufacturing

University of Applied Sciences Munich

Simulation | Structural Integrity | AI in Lightweight Design | Smart Composites
Design and Manufacturing of Lightweight Materials and Structures

TIMELINE

Call for Papers

- 01. 09. 2024 Deadline for abstract of your presentation
- 02. 09. 2024 Notification of acceptance for the conference
- 13. 01. 2025 Full paper submission deadline
- 27. 01. 2025 Notification of acceptance for the proceedings

Dates and Locations of the Symposium

- 23. 10. 2024 Universität der Bundeswehr München
- 13. 11. 2024 University of Applied Sciences Munich
- 27. 11. 2024 Technical University of Munich
